PROFESSIONAL SUMMARY

Java Backend Developer with around 2 years of experience building scalable backend systems using Java, Spring Boot, and REST APIs. Experienced in designing microservices, integrating third-party APIs, and optimizing database performance. Skilled in developing secure backend applications using Spring Security, JWT, OAuth 2.0, and MySQL. Strong understanding of data structures, multithreading, and backend architecture, with experience delivering production features in Agile teams.

PROFESSIONAL EXPERIENCE

Java Developer

SunbaseData LLC

08/2024 – 01/2026

Remote, USA

- Developed backend modules for a CRM platform using Java and Spring Boot, including real-time hashtag tracking and analytics dashboards.
- Integrated Meta APIs (Facebook and WhatsApp) to enable centralized messaging, automated replies, and social media interaction management.
- Built and optimized REST APIs and database queries to improve performance and system reliability.
- Worked closely with product and engineering teams in an Agile environment to deliver scalable production-ready features.

Software Engineer Intern

Masai School

12/2023 – 05/2024

Remote, Bangalore

- Built RESTful APIs using Python and Flask for user registration, authentication, and email verification.
- Implemented pagination and search functionality to improve backend performance for 500+ active users.
- Optimized backend workflows to reduce onboarding time and improve system responsiveness.
- Collaborated with developers using Git version control in an Agile development environment.

TECHNICAL SKILLS

- Languages & Core:** Java, OOPs, JavaScript, Multithreading, Data Structures
- Backend:** Spring Boot, Spring MVC, Spring Security, Microservices, Apache Kafka, REST APIs, JSP, Servlets, Maven
- Frontend:** HTML5, CSS3, JavaScript (ES6), React, Redux, Next.js
- Security:** JWT, OAuth 2.0, RBAC, CORS, CSRF
- Testing:** JUnit, Mockito
- Database:** MySQL, JPA, Hibernate, JDBC
- Caching & Performance:** Cache Manager, In-memory caching, SQL optimization
- Tools:** Git, Docker, Jenkins, Tomcat, Postman, IntelliJ, STS
- Logging & Docs:** SLF4J, Swagger

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Time Management

PROJECTS

Meta API Integration (SunbaseData)

Tech: Java, Spring Boot, REST APIs, Meta Graph API, OAuth 2.0, Webhooks

- Developed a backend system that integrates Facebook and WhatsApp messaging APIs into a CRM platform.
- Implemented webhook-based message synchronization to deliver real-time updates across the system.
- Built secure REST APIs with OAuth 2.0 authentication to manage automated replies and messaging workflows.
- Designed backend services that route messages and manage multi-platform social media interactions.

Real-Time Hashtag Management System (SunbaseData)

Tech: Java, Spring Boot, MySQL, Hibernate, REST APIs

- Developed a backend system to track and manage hashtags in real time within a CRM platform.
- Optimized database queries to improve data processing speed and backend performance.
- Integrated hashtag analytics into CRM dashboards for reporting and engagement insights.
- Built scalable REST APIs using Spring Boot and MySQL to support high-frequency hashtag events.

EDUCATION

Bachelor of Computer Applications

Manipal University

04/2025 – 04/2028

Jaipur - Online

Full Stack Web Development

Masai School

04/2022 – 05/2023

Bangalore, Remote
